- Completed and maintained artifact paperwork

## EDUCATION

### **B.A IN HISTORY** Arkansas State University | May 2017 Area of focus: European Economics

### **A TASTE OF ITALY** ASU Faculty-Led Study Abroad Program | Summer 2014

This upper-level history course examined cuisine in Italy, and included a study abroad component. Course work included a term paper and digital projects, such as synthesizing research about import patterns and trade routes into TikTok videos. The in-country experience offered the opportunity to leave my comfort zone, learning what cannot be read between the lines of a textbook, by speaking with local vendors, or touching and tasting ingredients.
